# COUNTER TOP & FURNITURE FASTENERS

ZIPBOLT UNIVERSAL DRILL GUIDE (40.280)

The universal drill guide works with several fasteners listed

Using the hardened steel inserts as a drill guide, pre-drill for the KD12.720 threaded shaft.

Align the jig using the circular windows as a guide. The pencil centre line will be clearly visible through these apertures.

Insert gear housing onto threaded shaft, then tighten KD 12.720 to create a firm reliable fixing.

HOLES	SUITABLE ZIPBOLT MODELS								
A (6.5mm)	10.820.	11.700.	11.720.	12.720.					
B (6.5mm)	10.820.	11.700.	11.720.	12.720.	13.520.	13.600*			
C (6.5mm)	10.820.	11.700.	11.720.	12.720.	13.520.	13.600*			
D (8.5mm)	11.550.	11.600.	12.500.	12.700.	13.500.	13.600*	13.801.	13.950.	13.900.
E (8.5mm)	11.550.	11.600.	12.500.	12.700.	13.500.	13.600*	13.801.	13.950.	13.900.
F (8.5mm)	12.700.								
12mm	Hole suited for insert screw								
10mm	Hole suited for insert screw								

**NOTE:** All set back distances should be checked on the specifications page relevant to the Zipbolt model.

After holes are drilled, some holes will need to be reamed with larger diameter drill bit depending on the model, refer to specifications.

Holes for the insert screws can be drilled by placing the drill guide back flat onto the the material face, square off using lines on the side of guide..
